

Collier Street What's App Group

The Parish Council correspond with you, the parishioners, with information usually through the Collier Street News. For urgent and important news or request same back to the Council, this is usually carried out by email.

The Councillors have recognised that emails are not always seen immediately or if correspondence is requested back, especially with photographs, then emails are not always the easiest for speed or navigation.

Therefore, a What's App group has been set up to communicate matters of urgency such as flood information, crime or other incidents. If the Councillors request photographs, these can be easily uploaded on this medium, which will aid them and/or Police if necessary for matters that may concern them.

If you would like to be part of this group, please send an SMS / iMessage to Cllr Deborah Papas on 07960 754641 stating **"Sign up for CSWA Group"** and Deborah will add you to the group.

Privacy Statement

Collier Street Parish Council take your privacy very seriously. All group members will have their What's App name and telephone number visible on the information pane which can be viewed by all group members. If you chose to leave your What's App name blank in your settings, then only your number will show. The Parish Council will not share your details with any third parties. By signing up to the group, you accept these conditions and also understand that the messages are only for urgent and important details only and not for general chit-chat. The Parish Council will not tolerate any rude or inappropriate messages, photographs or videos and reserve the right to remove such material and also the participant from the group.

The Parish Council hope many of the parishioners will join the group to strengthen the communications amongst all on this modern and versatile App.
